5. Use '**Article Tools**' from the right navigation bar to cite the article, email the article hyperlink to a colleague or contact the corresponding author by email

From the Desk of the Editor

The journey of the Bengal Journal of Otolaryngology and Head and Neck Surgery began more than half a decade back and I am grateful that we have come quite a long way since then with the unwavering support of the members of the Association of Otolaryngologists of India (AOI), West Bengal.

Bengal Journal of Otolaryngology and Head Neck Surgery strives to provide you with a respectable platform to showcase your scientific research for the world and it has been reasonably successful in achieving its goals. We have updated the look of the journal to give it a more contemporary feel, started an online version to mirror the paper version and overwhelmed the entire submission, review and publishing process,

making it fully online in keeping with the times.

We have also managed to get the journal indexed in respectable indices and continue to strive for more. The journal publishes quality research articles and technological advances and increased online visibility due to the journal being fully open access have led to articles being cited more and more by researchers around the world. AOI, West Bengal, feels proud to have its own indexed journal to support the academic and professional excellence of the fraternity.

Now, it is time to take the journal to the next level of excellence. I am confident as I pass on the baton that Team AOI West Bengal and the imminent Editorial Board will succeed in doing so with your wholehearted involvement. We request you to kindly help us publish your best works to highlight the advances in our field and support us in our endeavour to make our journal an even better one.

Dr Saumendra Nath Bandyopadhyay
Editor,
Bengal Journal of Otolaryngology and Head Neck Surgery
